

Power Review Book

The **Step Up to the TEKS Math Series** review component is called the **Power Review Book**. The Review Books are designed to be used as a Two-week Review prior to the STAAR Test or in a RtI type class. The Review Books focus on Readiness Standards using engaging activities, formative assessments centered on Readiness Standards and Reporting Category Assessments. The activities are designed to allow students opportunities to process in-depth learning through reflection pages, journaling, and key items to remember.

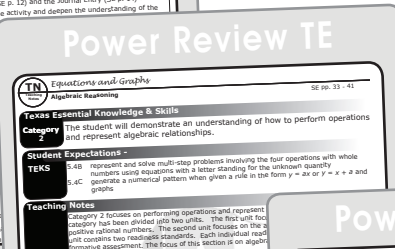

Facilitating questions, teacher's notes, and Pacing Guides help teachers stay on track and focus on the TEKS when reviewing with the students.

Journaling, Reflections, and Things to Remember help students process learning

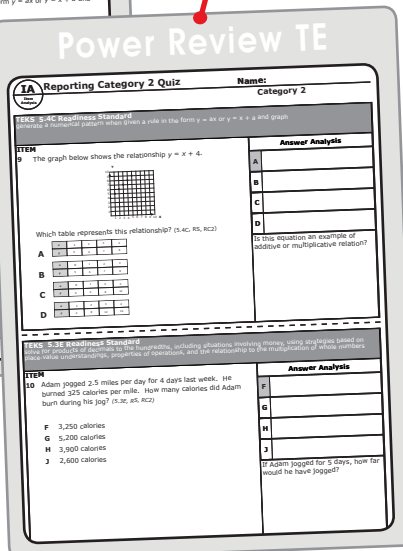

Formative Assessments for each Readiness Standard and Reporting Category

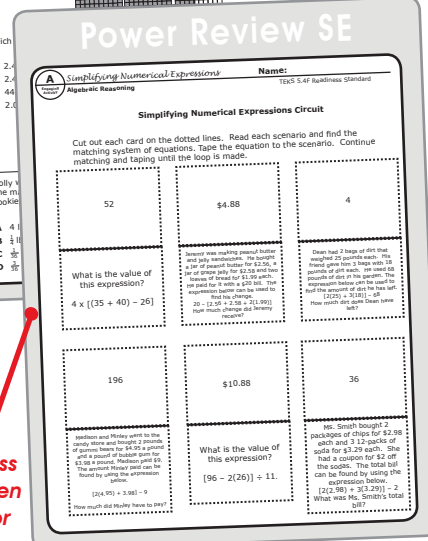

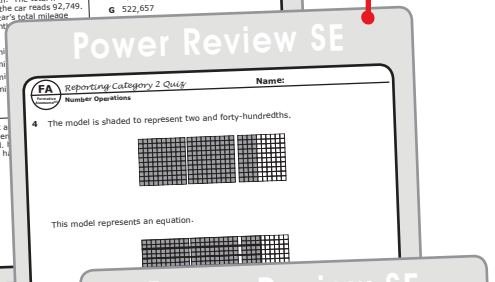

Pacing Guides organized Pre-STAAR Reviews

Item Analysis to help re-teach key concepts

Multiple Activities for each Readiness Standard written specifically for the TEKS

Extensive Teacher Notes along with Facilitating Questions
